*Leading the way...*

## LETTER FROM THE PRESIDENT

In fueling solutions, OPW is known around the world as the industry standard for unparalleled product selection, quality, innovation, engineering, distribution and total customer satisfaction. We have earned this brand leadership reputation and position by leading the way in fueling innovation for more than 119 years.

OPW is a disciplined and unified global force joined by a fundamental objective: produce the highest quality, defect-free fueling products in the world that enable marketers to provide the safest, most efficient, reliable, competitive and environmentally sustainable fueling operations possible. Every day, millions of people shake hands with OPW as they reach for our nozzles to fuel their vehicles. Little do they realize that it is a result of OPW's leading-edge innovations throughout all aspects of the fueling environment that enables them to fuel their vehicles with complete peace of mind.

As a global company, we are constantly at the forefront of a rapidly changing world, innovating solutions for fueling applications and requirements as diverse as the many cultures we serve. Providing the best fueling solutions is a mission without boundaries. To this end, we remain **One Company. One World. One Source™** committed to **Leading the Way** in creating innovative solutions to fuel the world...today, tomorrow and into the future.

David Crouse  
President

OPW is part of the DOVER Corporation
